FRONTEND DEVELOPER

MARK ANGEL PAPIO

Frontend Developer with 2+ years of experience building production Vue.js/Nuxt.js interfaces across real estate, insurance, retail, and government sector projects. Progressed from Junior Frontend Developer to Mid Web Developer through consistent delivery. Experienced integrating REST APIs against CMS platforms and third-party backend systems (KYC, policy purchasing flows), with working knowledge of Laravel/PHP on the backend.

WORK EXPERIENCE

MID WEB DEVELOPER (PREVIOUSLY JUNIOR FRONTEND DEVELOPER)

Designblue Manila - Makati, Philippines

2024 - Present

- Built and maintained frontend interfaces for concurrent client projects across real estate, insurance, retail, and government sectors — Vue.js, Nuxt.js, Tailwind CSS.
- Integrated REST APIs for CMS-driven content statewide; partnered directly with Etiqa's backend team on insurance-specific KYC and policy-purchasing API flows.
- Delivered a pixel-perfect static microsite for the Asian Development Bank using Nuxt static generation.
- Contributed to frontend architecture and component design decisions across projects of varying scale.

KEY PROJECTS

- Etiqa Insurance PH & Online Shop Portal — CMS + KYC/policy purchasing API integration (in development).
- Suntrust Properties, Robinsons Dept. Store, Inlife Benefits — client frontends, reusable Vue components.
- ADB Informational Platform & Designblue Manila Website — static Nuxt site; Nuxt 4/Vue 3 + Laravel CMS.
